## PROCEDURE FOR VALIDATION OF FOREIGN CREDIT

University policy dictates that all coursework taken outside the United States must be cleared through the appropriate UNC-Chapel Hill department before credit can be awarded. This procedure can be attempted only after a student has been admitted and enrolled through the Office of Continuing Studies (or in rare cases, after an application has been submitted through the School of Pharmacy). If you have been admitted to Continuing Studies and subsequently enrolled in courses, you should contact the appropriate department and arrange an appointment at the department's convenience. You should present the department with any documents, transcripts, syllabi, or any available supporting information regarding the courses you have completed. If a department recommends credit for you, a written statement should be submitted to the School of Pharmacy by the department.

*Please note: The UNC School of Pharmacy does **not** evaluate foreign credentials.*
