- 1:10–1:40 p.m.      *Breakout Session Four*

**Breakout Sessions 1 and 2**

**Infectious Diseases Case Presentation**

Faculty Presenter: Ralph Raasch, PharmD

Location: Kerr Hall 1001

Description: A patient case is presented to demonstrate the role of pharmacists in choosing the most appropriate drug therapy in a hospital setting.

**TV, Movies, and Drugs: How Far Do They Stretch The Truth?**

Faculty Presenter: Adam Persky, PhD

Location: Kerr Hall 2001

Description: TV and movies have long relied on medications for their plots from medical dramas to police shows. Through some examples, learn the truth behind the “movie magic of medications.”

**Allergies 101**

Faculty Presenter: Jennifer Robertson, PharmD

Location: Beard Hall 116

Description: If the words “sniffing,” “sneezing,” or “congested” describe how you feel during the spring and summer times, come learn more about seasonal allergies and ways to combat them with nonprescription products.

**Lab Activities**

Faculty: Lisa Dinkins, PharmD; Jennifer Robertson, PharmD; Kelly Scolaro, PharmD; and Robert Shrewsbury, PhD

Location: 2nd Floor Beard Hall

Description: Students demonstrate how to compound medication formulations and families will be able to participate. Volunteers can undergo skin analysis during a DermaView presentation and more!

**Breakout Sessions 3 and 4**

**Postgraduate Training and Careers in Pharmacy**

Faculty Presenters: Macary Marciniak, PharmD; Jo Ellen Rodgers, PharmD; Scott Singleton, PhD; and Dennis Williams, PharmD

Moderator: Carla White Harris, BSP Pharm, RPh

Location: Kerr Hall 1001

Description: Members of the panel discuss their respective fields of pharmacy, postgraduate training, and various careers in pharmacy.

**Pharmacogenetics: Do these genes make my drugs look fat?**

Faculty Presenter: Christine Walko, PharmD

Location: Beard 116 and 102 (Overflow)

Description: Explore this rising field of pharmacy and find out how your genes can influence drug selection and the importance it may have in our drug regimens in the near future.

**Nonprescription Medications**

Faculty Presenter: Stefanie Ferreri, PharmD

Location: Kerr 2001

Description: Have you ever been confused by the variety of medications in the cough and cold aisle? An overview of the pharmacist’s role in selecting nonprescription medications is discussed.

**Lab Activities**

See description of activities for sessions 1 & 2.
