All annual surveys are administered in the AACP online central survey system unless otherwise noted. Surveys are due approximately four to six weeks after being opened for administration. For access information please contact the Association’s Institutional Research department.

**March**

**Survey of Professional and Graduate Degree Programs & School Narrative**  
This survey is an online survey that opens in March. Information from this survey is used to produce the *Pharmacy School Admission Requirements*, a publication for potential applicants and health professions advisors. The school narratives are located in the front of the publication and typically contain general information, information about the degree program and curriculum, general admission requirements, and contact information. This information is also available on the AACP web site. Certain data elements are available in a searchable format in the Student Center section of the website.

**Graduating Student Survey**  
This survey is an online survey that collects information from graduating Pharm.D. students and is intended to gather perceptions regarding curriculum quality. The survey was initiated and designed by the AACP/ACPE Task Force on Assessment and Accreditation in 2002 and was revised in 2007 to reflect the release of ACPE’s Standards 2007. The intent of the surveys is for the colleges and schools of pharmacy to use them as both a curriculum assessment tool and to provide data during a self-study and accreditation review. This survey will open in March for school administration and will close at the end of June.

**Faculty Survey**  
This online survey collects information from pharmacy faculty and is intended to gather perceptions regarding curriculum quality. The survey was initiated and designed by the AACP/ACPE Task Force on Assessment and Accreditation in 2002 and was revised in 2007 to reflect the release of ACPE’s Standards 2007. The intent of the survey is for the colleges and schools of pharmacy to use it as both a curriculum assessment tool and to provide data during a self-study and accreditation review. This survey will open in March for school administration and will close at the end of June.

**May**

**Tuition Survey**  
This online survey collects in-state and out-of-state tuition and mandatory fees for Pharm.D. and graduate degree programs. Tuition information also appears in the *Pharmacy School Admission Requirements* publication.

**Preceptor Survey**  
This online survey collects information from the school/college of pharmacy’s preceptors and is intended to gather perceptions regarding curriculum quality. The survey was created in 2007 to reflect the release of ACPE’s Standards 2007. The intent of the survey is for the colleges and schools of pharmacy to use it as both a curriculum assessment tool and to provide data during a self-study and accreditation review. This survey will open in May for school administration and will close at the end of August.

**Alumni Survey**  
This online survey collects information from alumni of the school/college of pharmacy’s Pharm.D. program and is intended to gather perceptions regarding curriculum quality. The survey was initiated and designed by the AACP/ACPE Task Force on Assessment and Accreditation in 2002 and was revised in 2007 to reflect the release of ACPE’s Standards 2007. The intent of the survey is for the colleges and schools of pharmacy to use it as both a curriculum assessment tool and to provide data during a self-study and accreditation review. This survey will open in May for school administration and will close at the end of August.

**June**

**Roster and Faculty Salary Survey**  
Data collected in this online survey are used to produce the *Profile of Pharmacy Faculty*. In addition, faculty contact data is used to update the online Roster of Faculty and Professional Staff Search on the AACP website. Each institution is asked to review and update organization information, review and update current faculty and staff records, add new faculty and staff, and delete faculty and staff no longer affiliated with the institution.
October
Application Pool, Enrollments, and Degrees Conferred Surveys (Student Surveys)
These are online surveys that can be accessed on the AACP website at the end of October. Data on applications to the professional degree program, professional and graduate degrees conferred, and professional and graduate degree program enrollments are gathered. The Profile of Pharmacy Students publication is produced from these data.

November
Funded Research Grant Survey
This survey is distributed to the dean of each institution via email. Schools are asked to complete the survey using an Excel template. Data regarding research grant awards from NIH, other federal agencies, and non-federal agencies are collected. Aggregate data are reported in an Excel file on the AACP website. Some of the data collected from this survey are also used to update the online Federal Grants Search. This directory provides information on federal grant recipients at colleges and schools of pharmacy.

December
Survey of Vacant Budgeted and Lost Faculty Positions
This online survey was administered for the first time in November 2002 and collects information on the total number of vacant shared and non-shared faculty and administrative positions, as well as lost positions. An Institutional Research Brief is produced from the data and posted on the AACP website.

Financial Survey
Data collected on this online survey include income and revenue, salary expenditures, non-salary expenditures, and expenditures of extramural funds for research and training by source of grant. Three main reports - Summary of All Schools, Summary of Public Schools, and Summary of Private Schools - are generated from these data and sent to all institutions.

FREQUENTLY REQUESTED ANALYSES AND COMPARISONS

Tuition Survey Customized Requests
- Tuition and fees for public schools and/or private schools
- Average tuition for public schools and/or private schools
- Tuition range by institution type (public or private)
- Percent increase by institution type

Faculty Data
- Request for salary comparison - A customized report displaying salary information by rank, years in rank, and discipline for a selected peer group (minimum of 5 schools must be chosen)
- Total number of faculty (discipline specific)

Student Data
- Enrollments by year (5 years) for selected peer group
- Degrees conferred by year (5 years) for selected peer group

Peer Analysis - Financial Survey
- A summary report of peer schools can be run if the institution provides a list of at least five schools.
- Other analysis as requested:
  - State budget allocation per student FTE (range for peer group and rank for requesting school)
  - Total income and revenue per student FTE (range for peer group and rank for requesting school)
  - Salary expenditures per student FTE (range for peer group and rank for requesting school)
  - Total extramural support per student FTE (range for peer group and rank for requesting school)

Curriculum Quality Surveys
- A summary report of peer schools can be run if the institution provides a list of at least five schools.

Other requests may be available. Contact Danielle Taylor (dtaylor@aacp.org) to discuss other possibilities.
