Student Evaluation of Course and Educator Effectiveness Summary Report
Fall 2021 – Summer 2022 Results by Semester

The School's *Policy and Procedures on Student Evaluation of Course and Instructor Effectiveness* states the Office of Organizational Effectiveness, Planning, and Assessment (OE), will review all student course evaluation results to determine whether any courses or instructors warrant further review or are worthy of recognition *(Appendix A).*

This report presents a summary of the *Fall 2021, Spring 2022, and Summer 2022* student course evaluation results that met the School's established review criteria. It is important to keep in mind that student course evaluations represent *one* component of an overall course and instructor assessment process. The results do not reflect peer evaluation of instructor teaching effectiveness or a comprehensive, systematic review of a course.

[*]Course Directors identify instructors to be evaluated. There is no minimum number of contact hours required to be evaluated.
[†]If an instructor was evaluated in more than one course in a degree program, s/he is only counted once per course type.
[‡]If an instructor met "warrants further review" criteria more than once in a degree program, s/he is only counted once per course type.
[¶]If an instructor met "worthy of recognition" criteria more than once in a degree program, s/he is only counted once per course type.
[§]Academic description identifies PharmD year and MS program type ("Res" for residential and "Olo" for online only).
[‖]Type "Req" indicates a required course and "Elec" indicates an elective course.

Fall 2021 Student Evaluations of Course and Instructor Effectiveness Summary Report

Fall 2021 COVID-19:

The UNC Eshelman School of Pharmacy transitioned to remote learning for all courses and reduced operations per University guidelines in mid-March 2020 in response to the COVID-19 global health pandemic. This transition impacted instructional practices and the student learning experience beginning the Spring 2020 semester.

This transition in the teaching and learning environment should be considered when reviewing the following results. Student feedback on courses and instructors is one of multiple data sources in review of faculty instructors and curricular quality improvement efforts.

PREFACE

The School's Policy and Procedures on Student Evaluation of Course and Instructor Effectiveness states that the Office of Organizational Effectiveness, Planning, and Assessment (OE), using established criteria, will review all student course evaluation results to determine whether any courses or instructors warrant further review or are worthy of recognition *(Appendix A).*

This report presents a summary of the *Fall 2021* student course evaluation results that met the School's established review criteria. The following tables specify the number of courses and instructors evaluated, the number and percentage of courses and instructors *warranting further review*; and the number and percentage of courses and instructors *worthy of recognition*.

It is important to keep in mind that student course evaluations represent *one* component of an overall course and instructor assessment process. The results do not reflect peer evaluation of instructor teaching effectiveness or a comprehensive, systematic review of a course.

---

[*]Course Directors identify instructors to be evaluated. There is no minimum number of contact hours required to be evaluated.
[†]If an instructor was evaluated in more than one course in a degree program, s/he is only counted once per course type.
[‡]If an instructor met "warrants further review" criteria more than once in a degree program, s/he is only counted once per course type.
[¶]If an instructor met "worthy of recognition" criteria more than once in a degree program, s/he is only counted once per course type.

ESHELMAN SCHOOL OF PHARMACY

2021 – 2022 Student Evaluation of Course and Educator Effectiveness Summary Report
Prepared by the Office of Organizational Effectiveness, Planning, and Assessment (OE)

Spring 2022 Student Evaluation of Course and Instructor Effectiveness Summary Report

Spring 2022 COVID-19:

The UNC Eshelman School of Pharmacy transitioned to remote learning for all courses and reduced operations per University guidelines in mid-March 2020 in response to the COVID-19 global health pandemic. This transition impacted instructional practices and the student learning experience beginning the Spring 2020 semester.

This transition in the teaching and learning environment should be considered when reviewing the following results. Student feedback on courses and instructors is one of multiple data sources in review of faculty instructors and curricular quality improvement efforts.

PREFACE

The School's Policy and Procedures on Student Evaluation of Course and Instructor Effectiveness states that the Office of Organizational Effectiveness, Planning, and Assessment (OE), using established criteria, will review all student course evaluation results to determine whether any courses or instructors warrant further review or are worthy of recognition *(Appendix A).*

This report presents a summary of the *Spring 2022* student course evaluation results that met the School's established review criteria. The following tables specify the number of courses and instructors evaluated, the number and percentage of courses and instructors *warranting further review*; and the number and percentage of courses and instructors *worthy of recognition*.

It is important to keep in mind that student course evaluations represent *one* component of an overall course and instructor assessment process. The results do not reflect peer evaluation of instructor teaching effectiveness or a comprehensive, systematic review of a course.

---

*Course Directors identify instructors to be evaluated. There is no minimum number of contact hours required to be evaluated.
†If an instructor was evaluated in more than one course in a degree program, s/he is only counted once per course type.
‡If an instructor met "warrants further review" criteria more than once in a degree program, s/he is only counted once per course type.
¶If an instructor met "worthy of recognition" criteria more than once in a degree program, s/he is only counted once per course type.

Summer 2022 Student Evaluation of Course and Instructor Effectiveness Summary Report

Summer 2022 COVID-19:

The UNC Eshelman School of Pharmacy transitioned to remote learning for all courses and reduced operations per University guidelines in mid-March 2020 in response to the COVID-19 global health pandemic. This transition impacted instructional practices and the student learning experience beginning the Spring 2020 semester.

This transition in the teaching and learning environment should be considered when reviewing the following results. Student feedback on courses and instructors is one of multiple data sources in review of faculty instructors and curricular quality improvement efforts.

PREFACE

The School's Policy and Procedures on Student Evaluation of Course and Instructor Effectiveness states that the Office of Organizational Effectiveness, Planning, and Assessment (OE), using established criteria, will review all student course evaluation results to determine whether any courses or instructors warrant further review or are worthy of recognition *(Appendix A).*

This report presents a summary of the *Summer 2022* student course evaluation results that met the School's established review criteria. The following tables specify the number of courses and instructors evaluated, the number and percentage of courses and instructors *warranting further review*; and the number and percentage of courses and instructors *worthy of recognition*.

It is important to keep in mind that student course evaluations represent *one* component of an overall course and instructor assessment process. The results do not reflect peer evaluation of instructor teaching effectiveness or a comprehensive, systematic review of a course.

[*]Course Directors identify instructors to be evaluated. There is no minimum number of contact hours required to be evaluated.
[†]If an instructor was evaluated in more than one course in a degree program, s/he is only counted once per course type.
[‡]If an instructor met "warrants further review" criteria more than once in a degree program, s/he is only counted once per course type.
[¶]If an instructor met "worthy of recognition" criteria more than once in a degree program, s/he is only counted once per course type.
[§]Academic description identifies PharmD year and MS program type ("Res" for residential and "Olo" for online only).
[‖]Type "Req" indicates a required course and "Elec" indicates an elective course.

APPENDIX A: STUDENT COURSE EVALUATION REVIEW CRITERIA (REVISED 01/2015)

The Office of Organizational Effectiveness, Planning, and Assessment (OE) reviews all professional and graduate course evaluation results (including electives) using the below criteria:

Courses

A. *Warranting Further Review*
1. Median rating of <3 on 3 or more questions; OR,
2. Median rating of <3 for "overall rating of course" question

B. *Worthy of Recognition*
1. Median rating $\geq$ 4.5 on 4 or more questions; AND,
2. Median rating $\geq$ 4.5 for "overall rating of course" question

Instructors

C. *Warranting Further Review*
1. Median rating of <3 for "Overall, the instructor was an effective teacher." question

D. *Worthy of Recognition*
1. Median rating $\geq$ 4.5 for " Overall, the instructor was an effective teacher." question

Evaluation Instrument Details
- *Likert scale:*
  - 1=Never, 2=Rarely, 3=Sometimes, 4=Usually, 5=Always, or
  - 1=Poor, 2=Fair, 3=Good, 4=Very Good, 5=Excellent, or
  - 1=Strongly Disagree, 2=Disagree, 3=Neither Disagree/Agree, 4=Agree, 5=Strongly Agree
- *Number of Likert Scale Questions:* 6 Course-Level Questions and 2 Instructor-Level Questions

Custom Questions: Custom questions will not be included in OE's review of course evaluation results.

Graduate Program: In order for graduate courses/instructors to be identified as "warranting further review" or "worthy of recognition", student response rates on course evaluations must be approximately 80% for courses with 10 or fewer students, and approximately 60% for courses with 11 or more students.

[*]Course Directors identify instructors to be evaluated. There is no minimum number of contact hours required to be evaluated.
[†]If an instructor was evaluated in more than one course in a degree program, s/he is only counted once per course type.
[‡]If an instructor met "warrants further review" criteria more than once in a degree program, s/he is only counted once per course type.
[¶]If an instructor met "worthy of recognition" criteria more than once in a degree program, s/he is only counted once per course type.
[§]Academic description identifies PharmD year and MS program type ("Res" for residential and "Olo" for online only).
[‖]Type "Req" indicates a required course and "Elec" indicates an elective course.
