

Monday, May 13

1:00 – 3:00 p.m.

Critical Care / Informatics

1:00	Initial management of alcohol withdrawal with intravenous versus intramuscular Phenobarbital Stephen M. Davies
1:20	Impact of a 24-hour Pharmacy On-Call Response on Time to Antibiotics in Open Fractures Bacil Kadi
1:40	Post-Intubation Analgesia and Sedation Initiation Trends and the Impact of an Emergency Medicine Pharmacist Dylan Wagoner
2:00	Evaluating chemical venous thromboembolism prophylaxis following a non-traumatic hemorrhagic stroke Angela Basir
2:20	AB Testing of Custom Alerts – Evidence Based Informatics Daniel T. Mersman
2:40	Impact of Medication Dispense Tracking in a Community Hospital Setting Cullen Royston

Infectious Diseases and Immunization

1:00	The Evaluation of In-house Versus Send-out Azole Levels on Antifungal Therapies Hanna Haddad
1:20	Impact of Remdesivir Treatment on Clinical Outcomes in Patients Hospitalized with COVID-19 Pushti Shah
1:40	Slow Continuous Infusion versus Rapid Intermittent Bolus of 3% Hypertonic Saline for the Treatment of Hyponatremia Sierra Hill
2:00	Evaluation of Antibiotic Prescribing Patterns in Patients with Uncomplicated Gram-Negative Bacteremia in a Community Hospital Andrea Licata
2:20	Cephalexin Four Times Daily Versus Twice Daily for the Treatment of Urinary Tract Infections Diagnosed in the Emergency Department Abigail Rath
2:40	Evaluating the Rate of Acute Kidney Injury with Vancomycin Traditional Dosing (Trough-Based) versus Area Under the Curve/Minimum Inhibitory Concentration (AUC/MIC) Dosing Shelomith Akpoghenobor

Monday, May 13

1:00 – 3:00 p.m.

Pharmacotherapy and Medication Management

1:00	<u>Evaluation of the 2022 Semaglutide Shortage on Glycemic Control</u> Pauline Tran
1:20	<u>Reduction of Post-Operative Opioid Utilization in Pediatric Surgical Patients</u> Gabriele Quaranta
1:40	<u>Evaluation of the Duration of Pre-Procedural Antimicrobial Prophylaxis Among Spinal Cord Injured Patients Undergoing Lithotripsy</u> Tran Vu
2:00	<u>Expansion of an Opioid Stewardship Program in the Community Hospital Setting</u> Brooke Jones
2:20	<u>Comparison of Two Electronic Glucose Management Algorithms in the Treatment of Diabetic Ketoacidosis in Adult Patients</u> Rebecca McDevitt
2:40	<u>Utility of Apixaban or Rivaroxaban Lead-in Doses after Initial Parenteral Anticoagulation</u> Linda Allsworth

Pediatrics / General Medicine

1:00	<u>Frequency of Atypical Bacteria in Pediatric Sickle Cell Patients with Acute Chest Syndrome</u> Kelsey Oberholtzer
1:20	<u>Methadone Weaning Strategies in the Pediatric Population</u> Jacqueline Sullivan
1:40	<u>Bacterial Co-Detection in Neonates with Positive Respiratory Pathogen Panel</u> Marissa Marks
2:00	<u>Evaluation of IV Push Levetiracetam in Pediatrics</u> Kyle Jansen / Jenna Marshall
2:20	<u>Evaluation of acetaminophen vs. indomethacin for patent ductus arteriosus (PDA) closure in preterm infants</u> Ashton O'Hara
2:40	<u>Evaluation of the Impact of Emergency Medicine Pharmacist Presence on Door-to-Needle Time for Administration of Tenecteplase for Acute Ischemic Stroke</u> Alexis Knoles

Monday, May 13

1:00 – 3:00 p.m.

Ambulatory Care

1:00	<u>Assessment of the impact of different intervention models to decrease no-show rates for patients scheduled for embedded pharmacy visits</u> Lyric Chaplin
1:20	<u>Comparison of Patient Monitoring and Follow-up on Direct Oral Anticoagulant Therapy Following Pharmacist Intervention versus Standard Care</u> Brittany Sturdivant
1:40	<u>Impact of interdisciplinary diabetes management in a high-risk patient population</u> Lindsey Gibbon
2:00	<u>Evaluation Of Primary Care Prescribing Rates Of Empagliflozin In Patients With Diagnosis Of Heart Failure, Chronic Kidney Disease, And/Or Type 2 Diabetes Mellitus With Compelling Indications</u> Kenna Hausler
2:20	<u>Assessment of Clinical and Financial Impact Following Formulary Addition of Intrauterine Devices</u> Caroline Billingsley
2:40	<u>Evaluation of a Weight Achievement Management Shared Medical Appointment</u> Alexis Jones

Psychiatry

1:00	<u>Lithium and Antipsychotics in Post-Partum Psychosis: Utilization of Pro re Nata Medications on an Inpatient Psychiatric Perinatal Unit</u> Robyn Dryer Palmer / Valeria Laboy Collazo
1:20	<u>Evaluation of Medications Prescribed for Alcohol Use Disorder in Hospitalized Patients who were Screened for Alcohol use Disorder</u> Anjali Talwar
1:40	<u>A comparative Analysis of Metabolic Monitoring for Second Generation Antipsychotics (SGAs) in an Outpatient Psychiatry Clinic for Patients with and without Pharmacist Co-Management</u> Leah Kovalic
2:00	<u>Evaluating the Association of Antidepressant Serotonin Transporter Affinity with Bleeding Events in a Veteran Population</u> Emily Barbour
2:20	<u>Understanding the impact of unrestricting atypical antipsychotic prescribing on medical and surgical floors</u> Taylor Frederick
2:40	<u>Impact of long-acting injectable versus oral antipsychotic agents on mental health-related hospital encounters for inpatients with schizophrenia, schizoaffective disorder, or bipolar disorder</u> Jahnvi Yetukuri

Monday, May 13

1:00 – 3:00 p.m.

Oncology

1:00	<u>Implementation of a Systematic Review of Chemotherapy Treatment Notes by Oncology CPPs and Assessment of Impact</u> Linas Krulikas
1:20	<u>More than a MEMOIR: Evaluation of Specific Time-Of-Day Infusion Patterns of Immune Checkpoint Inhibitors in Melanoma, Lung, and Hepatocellular Carcinomas</u> MaryKathleen Ryan
1:40	<u>Impact of Optimizing Cardiovascular Pharmacotherapy Prior to Starting Anti-Cancer Therapy</u> Harrison Walker
2:00	<u>Outcomes of 7+3+GO Once-Per-Cycle in Favorable Risk AML</u> Jennifer Garson
