

Tuesday, May 14
8:00 – 10:20 a.m.

Critical Care

8:20	<u>Effect of a Reduced Maximum Default Propofol Infusion Rate on the Frequency of Propofol-Related Infusion Syndrome-Related Elements</u> Katarina Nadjkovic
8:40	<u>Evaluation of Emergency Department Post-Intubation Sedation Using Rocuronium versus Succinylcholine</u> Bethany Volkmar
9:00	<u>Evaluation of alteplase versus tenecteplase for acute ischemic stroke</u> Jade Frowner
9:20	<u>Comparison of Weight-Based and Fixed-Dose Prothrombin Complex Concentrate Regimens for Emergent Warfarin Reversal</u> Kathryn Herr
9:40	<u>Impact of emergency department interdisciplinary sepsis alert system on quality measure compliance and patient morbidity and mortality in a community hospital system</u> Madeleine Moore
10:00	<u>Optimization of Angiotensin II Utilization in the Intensive Care Unit</u> Melanie Sokol

Infectious Diseases and Immunization

8:20	<u>Comparison of Management Strategies in Clostridioides difficile PCR-positive/Toxin-negative Patients Receiving Systemic Antibiotics</u> Natalia Smith
8:40	<u>Antimicrobial Stewardship Opportunities for Urine Cultures Resulting After Patient Discharge</u> Natalie Harris
9:00	<u>Outcomes of Clostridioides difficile infection in patients treated with a partial versus complete course of fidaxomicin</u> Caroline Rosario
9:20	<u>Impact of a rapid polymerase chain reaction diagnostic test on vancomycin de-escalation in MSSA bacteremia</u> Benjamin Cherian
9:40	<u>Evaluation of Patients Who Have Failed Hepatitis C Treatment with a Direct Acting Antiviral at an Academic Medical Center</u> Kate Harding

Tuesday, May 14
8:00 – 10:20 a.m.

Pharmacotherapy and Medication Management / Community Pharmacy

8:20	The Impact of Buprenorphine Initiation in the Emergency Department Taylor Harrell
8:40	Economic Evaluation of Inhaled Respiratory Medication Use at a Community Hospital (ECO-INSPIRE) Savanna LaFlamme
9:00	Slow Continuous Infusion versus Rapid Intermittent Bolus of 3% Hypertonic Saline for the Treatment of Hyponatremia Sierra Hill
9:20	Comparison of select business expenses related to delivery of chronic medications before and after patient enrollment in a medication synchronization program (Med Sync) at an independent community pharmacy Avery Mooring
9:40	Comparison between artificial intelligence chatbots and community pharmacists regarding quality of product selection for over-the-counter cough and cold medications Shaunetta Campbell

Medication Safety

8:20	Assessing Health System Needs to Improve Inpatient REMS Adherence Kirsten Smith
8:40	Medication Errors in a Home Delivery Pharmacy Zofia Dice-Cholodzinski
9:00	Expansion of Medication History Program in a Community Hospital Cammie McMahan
9:20	Characterization and Evaluation of an Institutional Neuraxial Antithrombotic Best Practice Advisory Alert Anastasia Borodai

Oncology

8:20	Evaluation of Fixed-Dose Rituximab for the Treatment of Non-Malignant Immune-Mediated Hematologic Disorders Brittany Holshouser / Elizabeth Powell
8:40	Platinum and Taxane-Related Infusion Reaction Rates at a Large Academic Medical Center: A Retrospective Study Lauren Dietz
9:00	Evaluation of Same Day Pegfilgrastim in Early Stage Breast Cancer Patients Nathan Falls
9:20	Reducing Time to Nephrotoxic Chemotherapy Administration in Pediatric Oncology Patients Jeanette Lahoud
9:40	The Impacting of Converting from Neulasta On-Body Injector to Udenyca Autoinjector Justin Fenley
10:00	The Impact of Abbreviated Venetoclax in Combination with a Hypomethylating Agent on Acute Myeloid Leukemia Treatment Outcomes Jessa Mae H. Sabate

Tuesday, May 14
8:00 – 10:20 a.m.

Solid Organ Transplant / Oncology

8:20	<u>De Novo Donor Specific Antibody Development with Tacrolimus versus Belatacept Regimens in Kidney Transplant Recipients</u> Cayla Kass
8:40	<u>Impact of Early Hyperglycemia on Post-Transplant Diabetes Mellitus after Kidney Transplant</u> Emily Stevenson / Rachel Allen
9:00	<u>Tocilizumab for Treatment of Antibody-Mediated Rejection in Kidney Transplant Recipients</u> Feiran Liang
9:20	<u>Comparison of De Novo Mycophenolate Dosing Regimens in Heart Transplant Recipients</u> Alec Martschenko
9:40	<u>Evaluation of Carboplatin Dose Calculations and Effects on Safety Outcomes</u> Lacy La Fever

General Medicine / Ambulatory Care

8:20	<u>Safety and efficacy of lidocaine infusions as adjunctive pain management therapy</u> Michael Laskowitz
8:40	<u>Time to Administration of Tenecteplase versus Alteplase in Acute Ischemic Stroke Patients</u> Jeffery Roach
9:00	<u>Assessing Efficacy and Safety of Patient Controlled Analgesia (PCA) in Opioid-Tolerant vs. Opioid-Naïve Patients</u> Kelsey Reivers
9:20	<u>Comparing the Effectiveness of Prostaglandins for Cervical Ripening</u> Emily Joyce
9:40	<u>Comparison of Misoprostol and Dinoprostone for Labor Induction</u> Jared Milbert
10:00	<u>Impact of Abbreviated Glecaprevir/Pibrentasvir Treatment in Kidney Transplant Recipients of Hepatitis C Virus-Infected Donors</u> Lindsay Zink
